La llegenda explica com un arbre va brotar de les cendres d'una gran ciutat, les seves fulles recordaven les ales de les papallones i la brisa dibuixava el seu vol en acariciar-les. L'arbre de l'esperança, Ginkgo Biloba, va créixer i va començar a vestir de color la grisa ciutat d'Hiroshima.

A Cerabella hem volgut condensar l'espiritu d'aquest arbre magnific en aquesta nova col·lecció. Un model que motiva a continuar creixent, agafar impuls per brotar encara amb més força.

Cuenta la leyenda cómo un árbol brotó de las cenizas de una gran ciudad, sus hojas recordaban a las alas de las mariposas y la brisa dibujaba su vuelo al acariciarlas. El árbol de la esperanza, Ginkgo Biloba, creció y comenzó a vestir de color la gris ciudad de Hiroshima.

En Cerabella hemos querido condensar el espíritu de este magnífico árbol en esta nueva colección. Un modelo que motiva a seguir creciendo, coger impulso para brotar aún con más fuerza.

The legend says that from the ashes of a great city sprouted a tree whose leaves resembled butterfly wings, and the breeze traced their flight as they caressed them. The tree of hope, Ginkgo Biloba, grew and began to dress the grey city of Hiroshima with colour. We at Cerabella wanted to reflect the spirit of this magnificent tree in this new collection. An inspiration that spurs us on to keep growing, to increase our dynamic, to sprout even stronger.
